OVERVIEW

Accomplished **Senior Backend Engineer with 11+ years of experience** architecting and delivering secure, scalable backend systems across **eCommerce, foodTech, EdTech, and data-driven platforms**. Strong expertise in **Python (Django, FastAPI, Flask) and PHP (Laravel)**, with deep experience in **microservices, cloud infrastructure, large-scale data processing, and payment integrations**. Proven ability to lead technical teams, drive architectural decisions, and build high-availability systems at scale.

SKILLS

- ✓ **Languages & Frameworks:** Python (Django, Flask, FastAPI), PHP (Laravel, Symfony), JavaScript (Node.js)
- ✓ **Backend Engineering:** REST APIs, GraphQL, gRPC, Event-Driven Architecture, Distributed Systems
- ✓ **Databases:** PostgreSQL, MySQL, MongoDB, Redis, Database Design, Query Optimization
- ✓ **Data Processing:** Large-Scale Data Processing, Analytics, High-Volume Transaction Systems
- ✓ **Payment Gateways:** Mangopay, Stripe, PayPal, Apple Pay, Google Pay – secure and scalable integrations
- ✓ **Cloud & DevOps:** AWS (EC2, S3, RDS), Docker, CI/CD pipelines, GitHub Actions, Ansible AAP
- ✓ **Security:** OWASP, Authentication, Authorization, API Security, Rate Limiting
- ✓ **Team Leadership:** Agile/Scrum, stakeholder management, code reviews, project planning

WORK EXPERIENCES

DreamOnline Ltd.

H#1, R#2/E, Baridhara J Block, Dhaka, Bangladesh.
Senior Software Engineer

Jan 2021 - Present

Hybrid-Remote

- ✓ Led architecture and development of scalable backend systems using **Django, FastAPI, and Laravel**.
- ✓ Integrated **Stripe, PayPal, Apple Pay, Google Pay, Mangopay** to enable secure and seamless transactions.
- ✓ Processed **large data (1M+ records)** in marketing and analytics modules to drive data-driven decisions.
- ✓ Improved performance using **Redis, async jobs, database tuning, and AWS cloud optimization**.
- ✓ Implemented AWS auto-scaling using **EC2, ASG, and ELB** for seamless scaling during traffic spikes.
- ✓ Collaborated with frontend teams (**React.js, Vue.js**) for robust, scalable user experiences.

#Key Projects

- ✓ **Lixve Box:** SaaS platform for **lottery ticket purchases** and **real-time prize claims** built with Django.
- ✓ **Tokisuki:** Auction platform for luxury watches with **Python microservices** for live bidding and transactions.
- ✓ **WelTag:** Real-time fitness platform with live video, booking, and payments via **Laravel REST APIs**.
- ✓ **SaaS platform:** Analytics platform for e-commerce stores, processing and visualizing **billions of events** (clicks, sales, etc.).

WORK EXPERIENCES

bGlobal LLC.

Rupayan Shelford, R#23/6, Shyamoli, Dhaka, Bangladesh.
Software Engineer

Apl 2017 - Dec 2020

On-Site

- ✓ Designed and implemented **Laravel** and **Symfony** based **Restful APIs** for aviation and logistics systems, supporting secure and scalable data transactions.
- ✓ Integrated **payment gateways; Stripe and Mangopay** for secured transactions and **KYC documents** submission.

#Key Projects

- ✓ **Angel Flight West:** Mobile app for volunteer **pilots to manage flight** details, sign up for missions, and access trip information through integration with the main ERP system.
- ✓ **Koach:** Platform for coaches where client and coach can meet, book calendar, take reservations and process transactions.

Earlier Work EXperiences:

- ✓ **The Get Smart Group LLC, CA, USA (Nov 2019 – Jun 2020 [contract remote]):** Developed Laravel ecommerce applications and wordpress plugin.
- ✓ **Fluxar Studios Inc., CA, USA (Jan 2018 – Sep 2018 [contract remote]):** Developed backend systems and APIs using **PHP-Laravel**, developed wordpress theme.
- ✓ **Software Engineer, Live Well BD (2015–2017):** Developed backend systems and APIs in **PHP-Laravel**, handling real-time data updates.
- ✓ **Software Engineer, Hungraynaki.com (2014):** Entry-level development and team collaboration.

Key Achievements

- ✓ **Most Valuable Employee, 2021**
DreamOnline Limited
- ✓ **Second Best Team, 2023**
DreamOnline Limited

EDUCATION

American International University - Bangladesh (AIUB)
BSc Computer Science and Software Engineering
GPA: 3.21 / 4.0

2009 - 2014
